

## **work work tropical glaciers**

being put to work  
being the inputs  
delivering the outputs

feel the impulse  
detach the judgment  
ship the goods  
how good? no time to worry about that just now. next shipment needs to be prepared

we move for "opportunities"  
we move for money  
on the spot and across the country  
dance here please  
now  
with passion  
speed  
inspiration

complete this task  
there will be another  
there is no end  
the boulder will be at the bottom of the hill for you to push back up tomorrow. a good life  
practise, a bad capitalist reality.

you think you're classless, you can work from home, work it out, working class man

it happens on our own shores, water theft, wage theft, life and potential and choice and  
the tragedy of the commons. we have time. share time. leverage time. are bound to find  
that we're too busy for the sublime.

sometimes you treat yourself by buying a nice thing  
sometimes you treat yourself by avoiding submitting to the labour that would have earned  
you the money to buy the nice thing  
mostly though, it's not negotiable, you have no choice. work is the default.

and after the work we need water  
and before the work we needed water  
and during the work we need water

and the water will do it's own work and ours  
it will climb the tree trunks that our fruit may fruit

a water fast is a different type of work  
an abstinence from all things that are not water  
we need it  
it escapes us  
we are leaky in many ways  
drink too much water and you will dilute your salts and electrolytes.  
you can drown yourself by drinking too much

water is the vector

in large amounts it is none-negotiable. there is no trade deal with the ocean that we may pollute it less and it will drown less of us in return...

when water bodies collide. when duties overlap. when jurisdictions cross-contaminate and stalemate occurs instead of mixing. the fix might be to work more like water.  
powerful. free. captured. leveraged. traded. commodified. lusted after. feared. exoticized.  
default.
